

**Q: How accurate is this usage going to be?**

*A: We have two six week cycle menus. I tried to estimate based on expected enrollment in our programs. It can change according to enrollment, attendance, and number of days we may close for various reasons such as weather.*

**Q: Must the pack sizes on these items be exact or is that open for conversation?**

*A: The packing sizes do not have to be exact. It is open for conversation. Some of our centers serve up to 115 children while others may only serve 17 children.*

**Q: We can service all of the locations in this Bid out of our Opco except Graham. Sysco North Texas would have to service that location, but they will run with our pricing structure so there shouldn't be any concerns there. Are you all okay with that?**

*A: We are okay with that.*

**Q: Lastly, is there a time window you all would like deliveries made in or are you open to having a morning and afternoon delivery window on your specific day?**

*A: Delivery times can be made upon mutually agreed times with the centers.*
