VIII. Limited English Proficiency (LEP) Plan

Rolling Plains Management Corporation serves a twenty-eight (28) county area in north Texas. These counties include: Archer, Baylor, Brown, Callahan, Clay, Comanche, Cottle, Eastland, Foard, Hardeman, Haskell, Hood, Jack, Jones, Kent, Knox, Montague, Palo Pinto, Parker, Shackelford, Stephens, Stonewall, Taylor, Throckmorton, Wichita, Wilbarger, Wise, and Young.

Due to the large service area of the agency and the diversity of the programs offered by Rolling Plains Management Corporation a four-factor analysis to determine the need for a Limited English Proficiency (LEP) Plan will be maintained by program area.

The Rolling Plains Management Corporation’s Language Assistance Plan includes the following elements:

- Item #1: The results of the *Four Factor Analysis*, including a description of the LEP population(s), served.
- Item #2: A description of how language assistance services are provided by language
- Item #3: A description of how LEP persons are informed of the availability of language assistance service
- Item #4: A description of how the language assistance plan is monitored and updated
- Item #5: A description of how employees are trained to provide language assistance to LEP persons

Four Factor Analysis Methodology

To determine if an individual is entitled to language assistance and what specific services are appropriate, Rolling Plains Management Corporation has conducted a *Four Factor Analysis* of the following areas: 1) LEP Demography, 2) Contact Frequency, 3) Importance of Service, and 4) Resources and Costs.

Factor 1: The number or proportion of LEP persons eligible to be served or likely to be encountered by the program or recipient.

In addition to the number or proportion of LEP persons served, Rolling Plains Management Corporation will identify:

- (a) How LEP persons interact with the recipient’s agency:
Members of Rolling Plains Management Corporation’s staff interact with LEP persons, particularly with persons for whom Spanish is their primary language, on a daily to weekly basis depending on the department in which they work. The information provided to them relates to understanding and obtaining service. In addition, such interactions may include, on a less frequent basis, customer surveys and participation in public meetings.
- (b) Identification of LEP communities, and assessing the number or proportion of LEP persons from each language group to determine the appropriate language services for each language:
Please see the charts in Appendix H for an overview of the LEP communities in the service area.

Rolling Plains Management Corporation
Statement of Nondiscrimination
POLICIES AND PROCEDURES

- (c) The literacy skills of LEP populations in their native languages, in order to determine whether translation of documents will be an effective practice; and

A total of 87.58% of the population speaks English only. Of the households who speak another language at home, approximately 3.79% speak English “less than very well”. As you can see from the tables in Appendix H, the language spoken the most (aside from English) is Spanish followed by Asian/Pacific Island. Based on this information, it is reasonable to assume that the language that will be most needed is Spanish.

- (d) Whether LEP persons are underserved by the recipient due to language barriers:

Rolling Plains Management Corporation’s staff obtain translation services by outside resources as needed when they receive requests for assistance by LEP persons who speak a language other than English or Spanish. This need occurs most often in the Abilene Office location.

Factor 2: The frequency with which LEP persons come into contact with the program.:

Rolling Plains Management Corporation’s staff reviewed the frequency with which the board, office staff, and bus/van drivers have, or could have, contact with LEP persons. This includes documenting phone inquiries or office visits. To date, the Transportation and Head Start/Early Head Start programs have contact with LEP persons daily while the remaining service programs have contact weekly.

Factor 3: The nature and importance of the program, activity, or service provided by the program to people’s lives.

Rolling Plains Management Corporation does not provide emergency or health services. However, it does provide services that provide access to daily needs, such as transportation and early childhood education. As such, the agency strives to ensure that LEP persons are not limited in accessing services. The majority of the service area of Rolling Plains Management Corporation is rural or highly rural. The only areas that may contain a large geographic concentration of LEP persons are Wichita and Taylor Counties since they include the Wichita Falls and Abilene. The social service agencies that focus on providing resources to LEP persons are located in these urban areas. Rolling Plains Management Corporation employs staff that are bilingual, so Spanish-speaking clients are always able to receive assistance in their preferred language, which addresses the agency’s ability to provide meaningful access to LEP persons. Rolling Plains Management Corporation’s staff obtain translation services by outside resources as needed when they receive requests for assistance by LEP persons who speak a language other than English or Spanish.

Factor 4: The resources available to the recipient for LEP outreach, as well as the costs associated with that outreach.

Rolling Plains Management Corporation reviewed its available resources that could be used for providing LEP assistance and which of its documents would be most valuable to be translated if the need should arise. The Weatherization and Head Start/Early Head Start departments provide applications in Spanish. The remaining departments provide documents in Spanish as needed. Other language translation if needed would be provided through a telephone interpreter line for which the agency would pay a fee.
